

The Wilderness Adventure Education Trust is a non-profit organization that requires the support of supporting enterprises and donors to be able to meet it's obligations.

Owing to this we might from time to time be forced to postpone or cancel events and Adventure Education Programs. This will always only be done with due cognizance of the impact on our donors, sponsors, partners and volunteers.

In order not to disappoint any of our supporting partners we will where ever possible delay final confirmation and committing to a contractual agreement until the latest practical instance. Once an agreement is reduced to a signed contractual agreement our commitment is complete.
